WORK EXPERIENCE

Data Analyst Intern
Chestny ZNAK

September 2022 – Current | St. Petersburg, Russia

– Developed ML time series model for forecasting the supply of medicines in pharmacies with Prophet
– Tested data aggregations in Zeppelin
– Created and refined reports and visualizations in Redash

EDUCATION

Bachelor's in Statistical Modelling and Computer Science
Saint Petersburg State University

September 2018 – July 2022 | St. Petersburg, Russia

Relevant Courses: Linear Algebra, Calculus, Statistics

Thesis on «MANOVA with missing data and its application in medicine»

ACHIEVEMENTS

DataLens dashboard development hackaton
1st place

Developed with the team a dashboard for the admission of students to SUAI

First Line Software VI student hackaton
2nd place

Was engaged in the development of the API of the 3D printer aggregator site CloudPrints

COURSES

Intermediate Python
DataCamp

July 2022 | Online

Data Manipulation with pandas
DataCamp

July 2022 | Online

Data Science Summer School
Hertie School Data Science Lab

August 2022 | Online

SKILLS

DA & CS
– Proficient with **Python** (numpy, pandas, sklearn, matplotlib)
– Advanced **SQL** (window functions, cte)
– Algorithms, OOP
– Experience with C++ and R

Mathematics
– Probability theory, Statistics
– Knowledge of Multivariable Calculus and Linear Algebra

Tools/Platforms
– Hadoop, Apache Spark
– ClickHouse, PostgreSQL
– Jupyter Notebook, Git, Docker
– Redash, DataLens

Languages
– English (Advanced)
– Russian (Native)
– German (Beginner)
